PROGRAM

INDIVIDUAL

Perfect harmony

It is possible that we can match your personal taste with charming red-gold. Or you might prefer a dazzling gold colour? Maybe your natural match is the gun metal. No matter what you decide, you can always rely on the perfect colour fastness and the resistance to abrasion.

Perfect match

We chose the most sought shades and perfectly matched the colours to all products in the INDIVIDUAL range. Therefore, you don't have to worry that your flush plate, trap, click-clack or the angle valve would not match each other or your taps.

FUN-RG-P

Unique PVD technology

The luxurious high quality surface finish on PVD products is created by the application of a very thin layer of a special coating that merges with the base material at the atomic level.

Made of the highest quality materials

The result is increased durability and longevity of the product, as well as an elegant look. Either in a super-polished finish or in a brushed option with a more pronounced texture. Both variants are available in four colours.

Ask your architect or the bathroom studio for a colour sampler.
